GENERAL INFORMATION

Independent Study Courses

The IU Independent Study program's courses are developed, reviewed, and approved by their on-campus academic departments.

As an independent study student, you complete an equivalent amount of work and receive the same credit as you would in similar on-campus courses. Your work is graded according to the same standards established for on-campus courses.

Online Courses

Independent study courses are offered online.

Note: The School of Continuing Studies discontinued registrations in print courses effective January 1, 2012.

Course Instructors

Independent study courses are developed and taught by IU instructors. Your course instructors hand-grade your lessons and exams, giving you personalized attention and guidance. You may contact your instructors directly by phone or email.

Textbooks

Independent study courses require textbooks. The textbooks provide scholarly content developed by recognized authors in the subject areas, and they enhance the quality and rigor of your learning experience.

Important: Textbook costs are not included in tuition. See page 7.

Course Guide

Every independent study course has a course guide that you buy when you register. The guide provides discussions and explanations that lead you through the course. It also contains lessons that you complete and submit for grading.

When you register for an online course, you access your course guide on the Web.

Course guide prices are listed with the course descriptions. You may not buy a course guide without registering for the course.

Computer Requirements

You can take independent study online courses using a PC or Macintosh computer with Internet access. You must have email. Essential software includes the Web browser Mozilla Firefox and the Microsoft Office Suite. Online courses containing multimedia learning exercises may require you to install such browser plug-ins as Shockwave, Flash Player, or Quicktime. In addition, if you have certain child protection software installed, you may have to reset security preferences while working on your courses. Information on our privacy and security policies and on downloading and installing plug-ins is included in the Help files for your online course.

Microsoft Software

As an IU student registered for undergraduate credit courses, you can buy Windows and Macintosh software CDs through University Information Technology Services. These CDs include the Microsoft Office Suite, which is required in online courses. Visit iuware.iu.edu/offcampus.

Note: In order to acquire the Microsoft Office Suite, you must have an IU computing account. Please see the student handbook at scs.indiana.edu.

Register Today

You may register for independent study courses at any time during the year.

Important Registration Information

- **If you are an Indiana University student and you are *not* pursuing a general studies degree, you may not register for independent study courses unless you have written permission from the dean or associate dean of your school.**
- If you *are* pursuing a general studies degree, please check with your advisor to ensure that the courses you select meet degree requirements.
- If you are an *IU Bloomington* general studies student, you must obtain approval from the dean of the school from which you expect to graduate before registering for specific independent study courses.
- If you attend another college or university or another IU campus, we strongly suggest that you obtain approval from an appropriate academic officer on your campus before registering.

Register Online or by Phone Using Credit Card

If you have taken independent study courses in the past and you are paying by credit card, you can register online using your IU user name (network ID) and user identification number. Just log in to the independent study student information system, Dragon, at dragon.pop.indiana.edu.

If you have never taken an independent study course, register by phone at 800.334.1011 or 812.855.2292. A customer service representative will enter your information into Dragon so that the next time you register, you may do so online. The Independent Study program accepts American Express, Discover, MasterCard, and Visa.

Register by Mail, Fax, or In Person

You may also register by mail, fax, or in person.

Fill out the registration form at scs.indiana.edu/pdf/un-forms/unienroll_form.pdf. Calculate the total price of the course, including tuition, service fee, and course guide fee.

Important: Please calculate the course price carefully. The Independent Study program will re-calculate the costs when it enters your information into the student information system and reconcile any differences. Overpayments in excess of \$5 will be refunded; underpayments will be billed.

Write a check or obtain a money order payable to Indiana University for the total price of the course.

Important: If you are an international student, please arrange to pay course fees in U.S. dollars with an international money order or a bill of exchange drawn on a U.S. bank. The Independent Study program does not accept foreign currency.

To register by mail, send the registration form and fees to

Indiana University
School of Continuing Studies
Independent Study Program
408 N. Union St.
Bloomington, IN 47405

To register in person, come to 408 N. Union St. on the Indiana University Bloomington campus between 8 a.m. and 5 p.m. weekdays.

To register by fax, you must pay by credit card. Fax your registration form to 812.855.8680.

Twelve to 16 calendar days after you register for a course, you will receive a registration packet. During peak times, or if your registration form is incomplete, we may need extra time to process your registration or get your registration packet to you—we appreciate your patience.

FREQUENTLY ASKED QUESTIONS

Do I have to take courses during the traditional academic year?

The Independent Study program does not operate on a semester schedule, so you can register for courses year round.

How long do I need to complete an independent study course?

You have one full calendar year from the date you register to complete a course. However, independent study courses are designed to cover a full semester of material, so it typically takes 12 to 18 weeks to complete a course.

The time needed to complete a course will vary from student to student, depending on the pace at which the student works. It will also vary from course to course, depending on the number of course credits, the difficulty of the course material, and whether the student submits lessons electronically (online or by email) or by postal mail.

For example, if you take a course with only four lessons and one exam, and you submit your lessons by email, you should be able to easily complete the course in 12 to 18 weeks. If you take a course with 10 lessons and two exams, and you submit your lessons by postal mail (print courses only), you may need more time. Please take this information into account if you have a specific deadline for completing a course.

Many students who are completing courses that will apply toward a degree concentrate their efforts in order to complete each course in fewer than six months. This practice helps those who are pursuing a degree to finish in a timely manner.

Important: With online courses, your lessons are not subject to postal delays. Also, many instructors of print courses accept lessons by email. You are encouraged to take advantage of this option whenever possible.

What if I can't complete my course in a year?

If you register for a course on September 1, 2011, you must complete the course by September 1, 2012. September 1, 2012, is your **timeout date** for the course.

Generally speaking, one year is plenty of time to complete your course work. If you cannot finish your course work by your timeout date, you may purchase a four-month extension. You may not purchase an extension for a course at the same time you register for the course. You will be unable to purchase any extensions after June 30, 2012.

Where can I find out about the Independent Study program's policies and procedures? As a student in the Independent Study program, you are required to know and to follow School of Continuing Studies policies and procedures.

These policies and procedures are detailed in the undergraduate student handbook, available online at scs.indiana.edu/undergraduate/ind-study/handbook/index.shtml. **You must read the handbook before registering for a course, paying special attention to the following sections:**

- course formats
- Dragon and Oncourse
- contacting your instructors
- time limit to complete courses
- lesson submission policy
- lesson turnaround time
- exam procedures
- exam retakes
- grades/grading criteria
- student support services
- transfers and withdrawals
- students with disabilities
- release of student information

CERTIFICATES

Healthcare Accounting and Financial Management Certificate

The School of Continuing Studies offers a Healthcare Accounting and Financial Management certificate in cooperation with the IU Kelley School of Business. All courses leading to the certificate are available online. The courses are

Business A201

Introduction to Financial Accounting

Business A233

Intermediate Healthcare Accounting

Business A333

Healthcare Budgeting and Cost Analysis

For more information, call 812.856.1916, or visit scs.indiana.edu/resources/iu-programs/hafm.shtml.

Business Foundations Certificate

You can apply up to 6 credits from selected independent study courses toward the Business Foundations Certificate offered through the IU Kelley School of Business in Indianapolis.

Choose any two of the following independent study courses:

- A201..... Introduction to Financial Accounting
- F301 Financial Management
- M226Personal Selling Techniques
- M300 Introduction to Marketing
- P301Operations Management
- X204..... Business Communications

To earn the Business Foundations Certificate, you must complete 21 credit hours, 15 of which must be obtained through the Indianapolis campus directly, at Indianapolis campus tuition rates. You can earn the entire certificate online.

Learn more about the Business Foundations Certificate at kelley.iu.edu/ugrad/academics/minors.cfm.

FINANCIAL INFORMATION

Residency

In keeping with university policies, the Independent Study program charges in-state and out-of-state tuition. These rates remain low—under \$213 per credit hour—providing quality independent study options at an affordable tuition.

When filling out your registration form, be sure to answer the residency questions and to calculate the tuition rate (nonresident/resident) that is appropriate for you.

Tuition for Undergraduate Courses

Credit Hours	Resident	Nonresident
1 cr. hour	\$183.07	\$212.82
2 cr. hours	\$366.14	\$425.64
3 cr. hours	\$549.21	\$638.46
4 cr. hours	\$732.28	\$851.28

Most independent study courses carry 3 hours of credit.

Nonrefundable Fees

Service/Technology Fee \$65 per course

Course Guide Fees Cost varies per course

Overseas Airmail Fees for Assignments and/or Exams

Print courses \$55 per course

Online courses \$30 per course

Textbooks

Textbook are not included in the cost of tuition and must be purchased separately.

You may purchase your textbooks through the IU Bookstore at iub.bncollege.com. In addition, most of the textbooks used in independent study are available through independent retailers.

Be advised, however, that there are often multiple editions of the same textbook on the market. You are responsible for ensuring that the texts you purchase have the same ISBN numbers as those used in your course. You can find the ISBN numbers by viewing courses online at scs.indiana.edu/courses/undergraduate/ departments, or you may call 800.334.1011.

Paying Tuition and Fees

You must advise us when you register if you are receiving financial aid benefits.

Pay your tuition and fees in full when you register. Make checks or money orders payable to Indiana University for the total course price, including the tuition, course guide fee, and service/technology fee. You may also charge fees by using American Express, Discover, MasterCard, or Visa.

International students must arrange to pay course fees in U.S. dollars with an international money order or a bill of exchange drawn on a U.S. bank.

Important: We strive to give you accurate and current price information. Be aware, however, that Indiana University can change without notice statements concerning fees, rules, policies, curricula, courses, or other matters. **Please note that fees are nonrefundable.** If you transfer to a new course, you pay the fees for that course, plus any additional tuition.

Note: By sending a check for payment, you are authorizing Indiana University to use information from your check to make a one-time electronic debit from your account at the financial institution indicated on your check.

This electronic debit will be for the amount of the check and will post to your bank account within one day of receipt by us. The cancelled check will not be returned with your checking account statement.

If we cannot post the transaction electronically, you authorize us to present an image copy of your check for payment. You agree that if a third party submits a check on your behalf, that individual is your agent and was provided with these disclosures. If you prefer not to process your check as an electronic transaction, please send a note to that effect with your check, and we will process your payment as a paper transaction.

Financial Aid

At this time, Indiana University is unable to administer federal or state financial aid for Independent Study program courses.

Many Web sites can help you find information about financial aid, including

- www.collegescholarships.org
- www.studentaid.ed.gov
- www.students.gov
- www2.dsa.indiana.edu/veterans

Full-Time Student Status and Loan Deferment

If you are on the Bloomington campus, you may not count independent study courses toward full-time status and, when taken alone, your independent study courses do not qualify for loan deferment. We provide written verification of your enrollment for the purpose of verifying student status for insurance coverage and employers; however, only the registrar can provide an official certification of your student status. Other campuses' policies may vary, so check with your registrar's office for specific policies regarding these issues on your campus.

Independent study courses might qualify for a loan deferment if you are an undergraduate student admitted to the university-wide General Studies Degree program and if you are completing your degree entirely through the Independent Study program.

IU Tuition Benefit

Eligible individuals associated with Indiana University may receive a subsidy toward tuition costs associated with taking Indiana University classes. The following categories are eligible:

- full-time academic and staff personnel employed by the end of the first full week of classes for the semester or term
- full-time academic and staff employees on an approved leave of absence
- individuals with IU retiree status
- disabled former employees receiving long-term disability benefits from a university-sponsored plan, the Social Security Administration, or PERF
- the spouse, registered domestic partner, and dependent children of an individual in any of these categories

Learn details at www.indiana.edu/~uhrs/benefits/tuition.html.

Scholarships

Many companies and organizations offer scholarships for students returning to school. Visit your local library and look for books on scholarships, or call civic groups in your community and ask about their scholarship programs.

Employer Tuition Assistance

To attract and keep good employees, many companies include tuition reimbursement in their compensation packages. Most companies pay for a percentage of all educational expenses they deem appropriate. Some companies pay for your courses up front. Other companies require you to pay up front but then reimburse you after you finish a course. If your employer is going to pay your fees, include an official authorization for billing with your registration form.

Tuition Assistance for Service Members

If you are a service member wanting tuition assistance, obtain an authorized tuition assistance application from your education center and submit it with your registration form. The responsible service pays 75 to 100 percent of your tuition fees. You pay the remainder of the tuition fee, as well as all nontuition costs (course guides, deposits). Send your payment with your course registration form.

Indiana National Guard

The Indiana National Guard reimburses up to 100 percent tuition: \$250 per semester hour, with a cap of \$4,500 per fiscal year. Contact M. Alain Samples, education services officer, at 317.964.7017 or Allie.samples@ng.army.mil if you have questions.

DANTES

If you are a service member and want DANTES to reimburse your tuition, obtain a completed DANTES form (1562/31) from your education center and submit it with your application. You need to pay the full fee up front, but DANTES will reimburse 75 percent of your tuition after you complete your course. If you are taking more than one course, submit a DANTES form for each course.

Veterans Affairs Benefits

If you are an eligible veteran, your GI Bill benefits may pay for your independent study courses. You can obtain more information by calling the toll-free number of your Veterans Affairs Regional Office, 888.442.4551, or from

Veteran Support Services
Indiana Memorial Union
900 E 7th St. M084
Bloomington, IN 47405
Phone 812.856.1985

POLICIES

Student Handbook

Carefully review the student handbook before you register. It contains policies and procedures that are crucial to your success. Find the handbook at scs.indiana.edu/undergraduate/ind-study/handbook/index.shtml.

Cheating

All work on lessons and exams must be the result of your own efforts. Violation of this policy may result in a reduced or failing grade for the lesson, exam, or course. Your student handbook provides detailed policies on cheating.

Nondiscrimination Policy

Indiana University has an affirmative action office on each campus and will recruit, hire, promote, educate, and provide services to individuals based upon their individual qualifications. Indiana University prohibits discrimination based on arbitrary considerations of such characteristics as age, color, disability, ethnicity, gender, marital status, national origin, race, religion, sexual orientation, or veteran status.

Students with Disabilities

Indiana University provides reasonable support services and/or auxiliary aids that facilitate the education of eligible students with temporary or permanent disabilities. The extent to which these services are supplied is based on individual needs as supported by documentation (Individualized Educational Program, or IEP; 504 Plan; or psycho-educational evaluation) and on academic requirements of the course(s).

Consistent with federal law, students seeking any accommodation for completion of lessons and exams must provide documentation of the disability to the Independent Study program within 45 days of course registration. Please forward documentation to

Eileen Balliet, Disabilities Coordinator
Indiana University
School of Continuing Studies
408 N. Union St.
Bloomington, IN 47405

Release of Student Information

The Family Education Rights and Privacy Act is a federal law designed to protect the confidentiality of your records. Unfortunately, the law can be confusing. To clarify how FERPA regulations affect students in School of Continuing Studies programs, the school's administration consulted IU's University Counsel.

Under FERPA,

1. If you are taking a high school course and you are 17 years old or younger, your parents or legal guardians hold the rights to authorize the Indiana University School of Continuing Studies to release your student records to third parties. In other words, your parents hold the FERPA rights for that course.
2. If you are taking a high school course and you are 18 or older, you hold the FERPA rights for that course, and we may not release your records to your parents without your written permission.
3. If you were 17 years old or younger at the time of enrollment and turn 18 while still enrolled in a high school course, you assume the FERPA rights for the course, and we may not release your records to your parents without your written permission.
4. If you register for an undergraduate dual-credit course, you hold the FERPA rights for that course, even if you are 17 or younger, and we may not release your records for that course to your parents without your written permission.
5. If you are under 17 and register for both an undergraduate dual-credit course and a high school course, you hold the FERPA rights for the undergraduate course, and your parents hold the FERPA rights for the high school course.

Important: You must fill out and sign the Permission to Release Information form at scs.indiana.edu/pdf/un-forms/unferpa_form.pdf.

Certain information is public and will be released unless you file the appropriate form. Public information is limited to the following: name; address; phone number; major field of study; dates of attendance; admission or registration status; campus, school, college, or division; class standing; degrees and awards; activities; and sports and athletic information. Public information that cannot be restricted includes name, registration status, degrees, and dates of attendance. You can obtain the form for restricting the release of information by writing to the School of Continuing Studies, 408 N. Union St., Bloomington, IN 47405 or by sending an email request for the form to scs@indiana.edu.

Social Security Number

Your social security number is not disclosed to individuals or agencies outside Indiana University except in accordance with university policy and as otherwise required by law. For example, the reporting requirements of the Taxpayer Relief Act of 1997 require us to disclose students' social security numbers to the Internal Revenue Service. We do not use your social security number for identification purposes, and it does not appear with your name on any correspondence we might have with you.

Residency

Residency classification for purposes of tuition and fees as determined by the university-wide Independent Study program apply only to that program. Residency classification is subject to change according to university policy and specific agreements at other IU campuses.

AFRICAN STUDIES

African Studies is an interdepartmental program at Indiana University and offers students a broad background in the history, culture, politics, and languages of Africa. The following courses in the African Studies Program are offered through the Independent Study program.

Anthropology E105 Culture and Society

History E332 African History from Colonial Rule to Independence

ANTHROPOLOGY

E105 Culture and Society (3 cr.)

10 lessons | 2 exams

Introduction to the ethnographic and comparative study of contemporary and historical human society and culture. May be taken simultaneously with A105. Credit given for only one of the following: E105, A104, E303, or A304. Does not count toward major.

Course Guide: \$32

ASTRONOMY

Note: A100, A105, and A110 are introductory astronomy courses of roughly comparable difficulty. No one of them is considered a prerequisite for any other. A110 is a survey of all modern astronomy in one course. A100 and A105 divide the A110 material into two parts. Taken together, A100 and A105 cover essentially the same material as A110 but in greater depth. Mathematics at the level of high school algebra is assumed in these courses.

A100 The Solar System (3 cr.)

9 lessons | 2 exams

Celestial sphere, constellations, apparent motions of celestial objects, eclipses, history of astronomy, astronomical observations, the Earth as a planet, the Moon, the planets and their satellites, comets, meteors, theories of the origin of the solar system. Evening viewing of sky required. Credit not given for both A100 and A110.

Course Guide: \$32

A110 Introduction to Astronomy (3 cr.)

9 lessons | 3 exams

Earth as a planet, satellites, and comets. The Sun. Properties of stars, stellar systems. Extragalactic objects. The nature of the observable universe. Nighttime viewing of sky required. Credit not given for both A100 and A110, nor for both A105 and A110.

Course Guide: \$32

17 | Important: You will no longer be able to register for print courses after December 31, 2011.

BUSINESS

Note: Residential students at Indiana University may not count credit from the following business courses toward a degree or certificate in business.

A100 Basic Accounting Skills (1 cr.)

3 lessons | 1 exam

The course covers the process of capturing and recording economic events that underlie accounting reports. Particular emphasis is placed on the process of generating financial reports: source documents, original entries, special journals, ledgers, adjusting entries, closing entries, and financial statement preparation. The course provides students with the foundation necessary for higher-level accounting courses.

Course Guide: \$32

A201 Introduction to Financial Accounting (3 cr.)

8 lessons | 2 exams

Prerequisite: A100 or concurrent. Provides balanced coverage of the mechanics, measurement theory, and economic context of financial accounting. Strikes a balance between a preparer's and a user's orientation, emphasizing that students must understand both how transactions lead to financial statements (preparer's orientation), as well as how one can infer transactions given a set of financial statements (user's orientation). First part of the course introduces students to the financial accounting environment, financial statements, the accounting cycle, and the theoretical framework of accounting measurement. Second part of the course covers the elements of financial statements, emphasizing mechanics, measurement theory, and the economic environment. Students cannot receive credit for both A201 and A200.

Course Guide: \$32

A202 Introduction to Managerial Accounting (3 cr.)

8 lessons | 2 exams

Prerequisites: A100 and sophomore standing. Concepts and issues associated with the accounting and the management of business; particular emphasis is given to understanding the role of accounting in product costing strategic decisions, costing for quality, cost-justifying investment decisions, and performance evaluation and control of human behavior. Credit not given for both A202 and A200.

Course Guide: \$32

A233 Intermediate Healthcare Accounting (3 cr.)

8 lessons | 2 exams

Prerequisite: A201 or one semester of college-level beginning accounting or the equivalent. Practical solutions to more difficult accounting problems arising in day-to-day hospital business operations. Uniform hospital accounting and statistics, credits and collections, third-party reimbursements, payroll accounting, inventory accounting, long-term debt and fund raising, hospital financial statements, mechanized accounting, and hospital investments.

Course Guide: \$32

A311 Intermediate Financial Accounting I (3 cr.)

8 lessons | 2 exams

Prerequisites: A201, A202. Provides students with a thorough understanding of the theoretical foundations underlying financial reporting, revenue recognition, and the matching of expenses; financial statement presentation; and accounting for assets. Course's primary objective is to give students the tools necessary to understand and execute appropriate accounting procedures. Another goal is to help students understand the process through which accounting standards are determined and to evaluate the outcomes of that process from the perspectives of managers, shareholders, auditors, and others. Students will learn to assess competing accounting theories and methods from multiple perspectives. Note: Students must complete A311 before registering for A312. The same textbooks are used in Business A312.

Course Guide: \$32

A312 Intermediate Financial Accounting II (3 cr.)

8 lessons | 2 exams

Prerequisite: A311. Provides students with a thorough understanding of accounting for long-term liabilities and debt investment, stockholders' equity, and preparation of cash flow statements. Course's first objective is to give students the tools necessary to understand and execute appropriate accounting procedures. Course's second objective is to help students understand the process through which accounting standards are determined and to evaluate the outcomes of that process from the perspectives of managers, shareholders, auditors, and others. Students will learn to assess competing accounting theories and methods from multiple perspectives. Note: Students must complete A311 before registering for A312. The same textbooks are used in Business A311.

Course Guide: \$32

A325 Cost Accounting (3 cr.)

8 lessons | 2 exams

Prerequisites: A201, A202. Enables the student to prepare, use, and critically evaluate management accounting information for purposes of planning and control, product costing, and performance measurement and evaluation.

Course Guide: \$32

19 | Important: You will no longer be able to register for print courses after December 31, 2011.

A328 Introduction to Taxation (3 cr.)

8 lessons | 2 exams

Prerequisites: A201, A202. This course examines the fundamentals of federal income taxation. Primary emphasis is on basic understanding and awareness of the tax law as it applies to individuals but includes an overview of the taxation of corporations, partnerships, estates, and trusts. The course introduces students to tax research and the various sources of tax law, including the Internal Revenue Code, regulations, administrative pronouncements, and case law. Note: Because of the nature of the course material, no extensions of the one-year time limit for completion of the course will be granted to students registered for A328.

Course Guide: \$32

A333 Healthcare Budgeting and Cost Analysis (3 cr.)

8 lessons | 2 exams

Prerequisite: A233 or one year of college-level accounting or the equivalent in experience. Budgeting and cost analysis as tools to aid hospital management. Three basic methods of hospital cost analysis, third-party reimbursement formulas. Budgeting procedures illustrated are appropriate for those with no prior budgeting experience, some budgeting experience, and considerable budgeting experience.

Course Guide: \$32

A335 Fund Accounting (3 cr.)

8 lessons | 2 exams

Prerequisites: A201, A202. Financial management and accounting for non-profit-seeking entities such as municipal and federal governments, schools, and hospitals.

Course Guide: \$32

A339 Advanced Income Tax (3 cr.)

8 lessons | 2 exams

Prerequisite: A328. Advanced aspects of the income taxation of corporations, partnerships, and S corporations.

Course Guide: \$32

A422 Advanced Financial Accounting (3 cr.)

8 lessons | 2 exams

Prerequisite: A312. Generally accepted accounting principles as applied to partnerships, business combinations, branches, international operations, and not-for-profit organizations. Particular emphasis is given to consolidated financial statements.

Course Guide: \$32

20 | Important: You will no longer be able to register for print courses after December 31, 2011.

A424 Auditing (3 cr.)

8 lessons | 2 exams

Prerequisite: A312. Objectives of course are to provide students with an understanding of: (1) the auditing environment and professional ethics; (2) audit reports and the conditions under which alternatives are used; (3) basic auditing concepts; (4) audit evidence and documentation; (5) analytical reviews; (6) the audit risk model; (7) review and documentation of internal controls; (8) audits of cycles; (9) statistical sampling; and (10) audit objectives and audit procedures for mechanical systems. Emphasis is on the conceptual development of the subject matter, the nature of professional practice, and the technology of auditing.

Course Guide: \$32

D301 The International Business Environment (3 cr.)

5 lessons | 2 exams

Prerequisite: Junior standing. The national and international environmental aspects of international business. Examines the cultural, political, economic, systemic, legal-regulatory, trade, and financial environments and how they affect the international business activities of firms in the United States and in selected other countries.

Course Guide: \$32

F301 Financial Management (3 cr.)

7 lessons | 2 exams

Prerequisites: A100, A201, A202, K201, L201, X100, X103, X204; Communication and Culture C121; Economics E201, E202, E370; English W131; Mathematics M118, M119. Broad survey of finance for all business students. Provides a conceptual framework of a firm's investment, financing, and dividend decisions; includes working capital management, capital budgeting, and capital structure strategies. A financial calculator is recommended.

Course Guide: \$32

J401 Administrative Policy (3 cr.)

10 lessons | 2 exams

Prerequisites: F301, M301, P301, Z302, X420, and senior standing. Administration of business organizations: policy formulation, organization, methods, and executive control.

Course Guide: \$35

L201 Legal Environment of Business (3 cr.)

10 lessons | 2 exams

Prerequisite: Sophomore standing. Emphasis on the nature of law through examining a few areas of general interest, such as the duty to avoid harming others (torts), the duty to keep promises (contracts), and government regulation of business. The same textbooks are used in L303.

Course Guide: \$32

L303 Commercial Law II (3 cr.)

10 lessons | 2 exams

Prerequisite: L201. Focuses mainly on the law of ownership, forms of business organization, commercial paper, and secured transactions. For accounting majors and others desiring a broad yet detailed knowledge of commercial law. The same textbooks are used in L201.

Course Guide: \$32

L350 Online Law (3 cr.)

8 lessons | 2 exams

Focuses on the management of legal problems that arise from the use of the Internet and other interactive computer networks. The goals of the course are to increase students' awareness of the legal issues that arise in a variety of online contexts, familiarize students with the legal frameworks that are evolving in the U.S. and other legal systems to resolve those issues, and guide students in strategies for managing the legal risks inherent in communicating and doing business online.

Course Guide: \$32

M226 Personal Selling Techniques (3 cr.)

8 lessons | 2 exams

This course is designed in response to the developing need to have a sales related course designed for non-business majors. It is recognized that people in every profession have to communicate ideas, plans, proposals, etc. in a persuasive manner. Five basic areas will be covered in the course: (1) the selling process, (2) the investigative stage, (3) the demonstration of capability stage, (4) the commitment stage, and (5) the designing of sales models to improve performance results.

Course Guide: \$32

M300 Introduction to Marketing (3 cr.)

9 lessons | 2 exams

Prerequisites: A200 or A100/A201–A202. Offered for students with a formal minor in business who may be majoring in apparel merchandising and interior design, journalism, telecommunications, or sports marketing and management. Examination of the market economy and marketing institutions in the United States. Decision making and planning from the manager’s point of view and impact of marketing actions from the consumer’s point of view. No credit toward a degree in business.

Course Guide: \$32

P301 Operations Management (3 cr.)

10 lessons | 2 exams

Prerequisites: A100, A201, A202, K201, L203, X100, X103, X204; Communication R110; Economics E201, E202, E270; English W131; Mathematics M118, M119. A survey course concerned with the production and distribution of goods and services. Examines how a firm produces and delivers its goods and services, with consistent and acceptable levels of quality, in a cost-effective manner. The discussion covers a wide range of interrelated issues including quality and process improvement, forecasting, planning, resource management, customer service, scheduling, and layout and process design.

Course Guide: \$32

X100 Introduction to Business (3 cr.)

10 lessons | 2 exams

Business administration from the standpoint of the manager of a business firm operating in the contemporary economic, political, and social environment. No credit for juniors or seniors in the IU School of Business.

Course Guide: \$32

X204 Business Communications (3 cr.)

8 lessons | 2 exams

Prerequisite: English W131 or equivalent with a grade of C or better. Business Communication prepares each student to write strategic, effective, and ethical messages and to collaborate in global business environments. Students learn to: apply the complex communication process model to specific contexts; construct and critically analyze arguments; write clear, concise, and audience-centered business documents; create and submit videos of oral presentations. Students must submit video recordings as Windows Media Video (.wmv) or mpeg (.mp4) files.

Course Guide: \$32

Z300 Organizational Behavior and Leadership (3 cr.)

10 lessons | 2 exams

Nature of human behavior in organizations as a function of the individual, the groups within which the individual interacts, and the organizational setting. Application of behavioral science concepts and findings to individual behavior and organizational performance. No credit given toward a degree in business.

Course Guide: \$32

CLASSICAL STUDIES

C101 Ancient Greek Culture (3 cr.)

8 lessons | 2 exams

Examination and evaluation of the ideas of the Greeks as reflected in their traditions and way of life and in their intellectual and artistic achievements. Selection from general works and Greek authors in English translation.

Course Guide: \$32

C102 Roman Culture (3 cr.)

6 lessons | 2 exams

Examination and evaluation of the Romans as reflected in their traditions and way of life and in their intellectual and artistic achievements. Major topics: the person (rights, restrictions, environment), society and politics, intellectual and spiritual life.

Course Guide: \$32

C205 Classical Mythology (3 cr.)

3 lessons | 3 exams

Introduction to Greek and Roman myths, legends, and tales, especially those that have an important place in the Western cultural tradition.

Course Guide: \$32

C209 Medical Terms from Greek and Latin (2 cr.)

6 lessons | 2 exams

Basic vocabulary of some 1,000 words, together with materials for formation of compounds, enables students to build a working vocabulary of several thousand words. Designed for those intending to specialize in medicine, nursing, dentistry, or microbiology.

Course Guide: \$32

COMMUNICATION AND CULTURE

C223 Business and Professional Communication (3 cr.)

8 lessons | 2 exams

Prerequisite: C121 recommended. Examines organizational communication, with emphasis on skills acquisition. Developed skills include interviewing, group discussion, parliamentary procedure, and public speaking. Students will be required to draft family members, friends, or colleagues to participate in a mock-group meeting and a mock-job interview that will be recorded. Four of the assignments have oral components that students must record and submit. In the online version, students must upload the oral assignment as an audio file (preferably in MP3 format). In the correspondence version of the course, students may attach the oral portion as an audio file to the email assignment submission, or they may submit the assignment via regular mail and record the audio portion on a CD or cassette tape. Credit will not be given for both S223 and C223.

Course Guide: \$32

COMPARATIVE LITERATURE

C190 An Introduction to Film (3 cr.)

8 lessons | 2 exams

Nature of film technique and film language; analysis of specific films and introduction to major critical approaches in film studies.

Course Guide: \$32

C217 Detective, Mystery, and Horror Literature (3 cr.)

9 lessons | 2 exams

Origins, evolution, conventions, criticism, and theory of the detective and mystery story; history of the Gothic novel; later development of the tale of terror; major works of this type in fiction, drama, and film.

Course Guide: \$32

CRIMINAL JUSTICE

P100 Introduction to Criminal Justice (3 cr.)

8 lessons | 2 exams

Prerequisite: Freshman or sophomore standing. Historical and philosophical background, structure, functions, and operation of the criminal justice system in the United States. Introduction to and principles of formal behavior control devices.

Course Guide: \$32

P200 Theories of Crime and Deviance (3 cr.)

10 lessons | 2 exams

Critical examination of biological, psychological, and sociological theories of crime and deviance. Examination of individual, group, and societal reactions to norm-violating behaviors.

Course Guide: \$32

P303 Corrections and Criminal Justice (3 cr.)

8 lessons | 2 exams

Historical and comparative survey of prison confinement and the various alternatives within the scope of the criminal justice system's policies and methods of implementation.

Course Guide: \$32

P306 Drugs and Society (3 cr.)

8 lessons | 2 exams

Analysis of the political, economic, social, and cultural factors that shape the use of consciousness-altering substances. Consideration of the way these factors influence the social and legal response to drug use.

Course Guide: \$32

P462 Child Abuse and Neglect (3 cr.)

9 lessons | 2 exams

Prerequisites: P200 and senior standing or consent of instructor. Cultural, societal, and personal components that lead to child abuse. Approaches to treatment and prevention. Students must have access to a VCR or DVD player.

Course Guide: \$32

ECONOMICS

E201 Introduction to Microeconomics (3 cr.)

8 lessons | 2 exams

Scarcity, opportunity cost, competitive and noncompetitive market pricing, and interdependence as an analytical core. Online course requires Excel and Word.

Course Guide: \$32

E202 Introduction to Macroeconomics (3 cr.)

8 lessons | 2 exams

Measuring and explaining aggregate economic performance, money, monetary policy, and fiscal policy as an analytical core.

Course Guide: \$32

E308 Survey of Public Finance (3 cr.)

8 lessons | 2 exams

Prerequisites: E201, E202. Major elements of taxation and public expenditures. Not recommended for economics majors. Only 6 credit hours from E308, E361, and E362 may be counted toward a major in economics.

Course Guide: \$32

ENGLISH

G205 Introduction to the English Language (3 cr.)

8 lessons | 2 exams

Acquaints the student with contemporary studies of the nature of language in general and of the English language in particular. Not intended for students wanting a course in English as a second language.

Course Guide: \$32

L141 Introduction to Writing and the Study of Literature I (4 cr.)

10 lessons | 2 exams

Introduces students to the study of literature through the reading of classic and contemporary works, including *The Odyssey*, *Othello*, *The Things They Carried*, and *Maus*. Students practice specific writing strategies, such as comparison, and focus on their own responses to the texts in short exercises and longer essays.

Course Guide: \$32

L202 Literary Interpretation (3 cr.)

11 lessons | 1 exam

Prerequisite: Satisfactory completion of the English composition requirement. Development of critical skills essential to participation in the interpretive process. Through focused writing assignments, introduces the premises and motives of literary analysis and critical methods associated with historical, generic, and/or cultural concerns. L202 can no longer be used to fulfill the College of Arts and Sciences Intensive Writing requirement.

Course Guide: \$32

L204 Introduction to Fiction (3 cr.)

10 lessons

Representative works of fiction; structural techniques in the novel. Novels and short stories from several ages and countries.

Course Guide: \$32

L205 Introduction to Poetry (3 cr.)

10 lessons | 2 exams

Kinds, conventions, and elements of poetry in a selection of poems from several historical periods.

Course Guide: \$32

L207 Women and Literature (3 cr.)

8 lessons | 2 exams

Issues and approaches to critical study of women writers and their treatment in British and American literature.

Course Guide: \$32

L213 Literary Masterpieces I (3 cr.)

5 lessons | 2 exams

Literary masterpieces from Homer through Malory. Aims at thoughtful, intensive reading; appreciation of aesthetic values; enjoyment of reading.

Course Guide: \$32

L314 Late Plays of Shakespeare (3 cr.)

7 lessons | 2 exams

Close reading of seven of Shakespeare's later plays. May not be taken concurrently with L220.

Course Guide: \$32

28 | Important: You will no longer be able to register for print courses after December 31, 2011.

L354 American Literature since 1914 (3 cr.)

9 lessons | 2 exams

Provides an understanding of the pivotal literary innovations and cultural changes during this period. Literary movements such as naturalism, realism, and modernism may be the subject of focus, as might changes in race and gender relations, labor politics, immigration policies, regionalism, and the increasing shift from agricultural to urban economics.

Course Guide: \$32

L358 American Literature, 1914–1960 (3 cr.)

9 lessons | 2 exams

Survey of literary expressions centered mainly in the first half of the twentieth century. Attention may be given to such literary movements as modernism and the Beats, as well as literature written by women and various ethnic populations. Includes such writers as Ellison, Kesey, Hemingway, Faulkner, and Doctorow.

Course Guide: \$32

L390 Children's Literature (3 cr.)

8 lessons | 2 exams

Historical and modern children's books and selections from books; designed to assist future teachers, parents, librarians, or others in selecting the best in children's literature for each period of the child's life.

Course Guide: \$32

W103 Introductory Creative Writing (3 cr.)

10 lessons

Introduction to the art of creative writing. Short assignments, independent work, and discussion of the fundamentals of writing fiction and poetry. Does not satisfy the College of Arts and Sciences Fundamental Skills in English Composition requirement. National award winner.

Course Guide: \$32

W131 Elementary Composition (3 cr.)

10 lessons

Prerequisite: None, but Linguistics T101 is recommended for students who need instruction in English as a second language. Offers instruction and practice in the reading, writing, and critical thinking skills required in college. Emphasis is on written assignments that require synthesis, analysis, and argument based on sources.

Course Guide: \$32

W202 English Grammar Review (1 cr.)

6 lessons | 1 exam

Provides basic understanding of grammatical terms and principles sufficient to enable students to edit their own prose with confidence. No prior knowledge of grammar is assumed or required. Does not count toward the English major or minor.

Course Guide: \$32

W203A Creative Writing (3 cr.)

10 lessons

Prerequisite: English major or English W103 or permission of Director, Creative Writing. Exploratory course in the writing of poetry. All assignments must be typed or word processed. Credit given for only one of the following: W203A, W203B, or W203C. Does not satisfy the College of Arts and Sciences Fundamental Skills in English Composition requirement.

Course Guide: \$32

W203B Creative Writing (3 cr.)

10 lessons

Prerequisite: English major or English W103 or permission of Director, Creative Writing. Exploratory course in the writing of prose. All assignments must be typed or word processed. Credit given for only one of the following: W203A, W203B, or W203C. Does not satisfy the College of Arts and Sciences Fundamental Skills in English Composition requirement.

Course Guide: \$32

W203C Creative Writing (3 cr.)

10 lessons

Prerequisite: English major or English W103 or permission of Director, Creative Writing. Exploratory course in imaginative writing. Students concentrate on both poetry and prose for reading and written assignments. All assignments must be word processed. Credit given for only one of the following: W203A, W203B, or W203C. Does not satisfy the College of Arts and Sciences Fundamental Skills in English Composition requirement.

Course Guide: \$32

W231 Professional Writing Skills (3 cr.)

11 lessons | 1 exam

Prerequisite: Completion of the English composition requirement. Designed to develop research and writing skills requisite for most academic and professional activities. Emphasis on methods of research, organization, and writing techniques useful in preparing reviews, critical bibliographies, research and technical reports, proposals and papers. Students must have access to a word processor with a letter-quality laser or inkjet printer.

Course Guide: \$32

FINE ARTS

H100 Introduction to Art History and Visual Culture for Non-Majors (3 cr.)

10 lessons | 2 exams

Designed to acquaint students with outstanding works of art and to provide an approach to appreciation through knowledge of purposes, techniques, form, and content. Does not count toward the fine arts major. Credit given for only one of A108 or H100.

Course Guide: \$32

FRENCH

F100 Elementary French I (4 cr.)

5 lessons | 2 exams

Introduction to the French language and selected aspects of French civilization and culture. Credit given for only one of F100, F115, and F491.

Course Guide: \$32

GENDER STUDIES

G225 Gender, Sexuality, and Popular Culture (3 cr.)

8 lessons | 2 exams

Examination of popular cultural “makings” of masculinity, femininity, and sexuality through typical representation of gender within fiction, theater, cinema, radio, music, television, journalism, and other secular mass media. Analysis of the developing international telecommunications “superhighway” and struggles to secure increased representation of women and of feminist perspectives within existing culture industries. Internet access is not required for the correspondence course, but it is recommended. Students must be able to view the following films: *Top Gun* or *Vertigo* (for lesson 1), *Fight Club* (for lesson 2), *The Silence of the Lambs* and *Halloween* (for lesson 9). The films are not supplied by the Independent Study program.

Course Guide: \$32

31 | Important: You will no longer be able to register for print courses after December 31, 2011.

GEOGRAPHY

G107 Physical Systems of the Environment (3 cr.)

10 lessons | 2 exams

Introduction to the physical principles governing the geographical distribution and interrelationships of Earth's physical features (atmosphere and oceans, landforms, soils, and vegetation). The course provides students with the background necessary to evaluate current environmental issues.

Course Guide: \$32

G110 Introduction to Human Geography (3 cr.)

10 lessons | 2 exams

An introduction to the principles, concepts, and methods of analysis used in the study of human geographic systems. Examines geographic perspectives on contemporary world problems, such as population growth, globalization of the economy, and human-environmental relations.

Course Guide: \$32

G120 World Regional Geography (3 cr.)

10 lessons | 2 exams

Analysis of population, culture, environment, and economies of major world regions. Examination of issues of global importance, including development, demographic change, urbanization and migration, and international conflict.

Course Guide: \$36

G305 Environmental Change: Nature and Impact (3 cr.)

9 lessons | 1 exam

Prerequisites: G107 or G109 or consent of instructor. An integrated systems approach to examining the forcing, system response, and impacts of environmental change. In addition methods of documenting change and identifying natural variability versus change due to anthropogenic forcing will be presented.

Course Guide: \$32

G326 Geography of North America (3 cr.)

9 lessons | 1 exam

Continental and regional variations in terrain, climate, and economic and social life of the United States and Canada, with emphasis on geographical principles, sources of data, and techniques of investigation.

Course Guide: \$32

32 | Important: You will no longer be able to register for print courses after December 31, 2011.

GEOLOGICAL SCIENCES

G103 Earth Science: Materials and Processes (3 cr.)

8 lessons | 2 exams

Introduction to the origin and classification of minerals and rocks. Relationships between rock types, rock structures, surficial geological processes of running water, subsurface water, glaciation, wind, tides, and landform evolution. Geologic time. Credit given for only one of the following: G103 or G111.

Course Guide: \$32

G116 Our Planet and Its Future (3 cr.)

8 lessons | 2 exams

The interaction between geologic and environmental processes in the earth. Special emphasis on how these processes affect public policies and laws. Course guide includes a lab kit with diluted hydrochloric acid. Students will need access to a camera, a computer with a CD-ROM drive, and the Internet. Students will go on a self-led field trip.

Course Guide: \$40

HEALTH, PHYSICAL EDUCATION, AND RECREATION

C366 Community Health (3 cr.)

10 lessons | 2 exams

A review of factors that influence the health of communities and the means to protect and improve overall community health.

Course Guide: \$32

F258 Marriage and Family Interaction (3 cr.)

12 lessons | 2 exams

Basic personal and social factors influencing the achievement of satisfying marriage and family experiences.

Course Guide: \$32

H263 Personal Health (3 cr.)

10 lessons | 2 exams

This survey course provides a theoretical and practical treatment of the concepts of disease prevention and health promotion. Covers such topics as emotional health; aging and death; alcohol, tobacco, and drug abuse; physical fitness; nutrition and dieting; consumer health; chronic and communicable diseases; safety; and environmental health.

Course Guide: \$32

N220 Nutrition for Health (3 cr.)

8 lessons | 2 exams

Introduction to nutrients, their uses, and food sources. Application of nutrition principles to personal eating habits for general health; overview of current issues in nutrition. Not for students in dietetics or nutrition science. Credit given for only one of the following: N220, N231, or Nursing B215. Does not fulfill School of Nursing requirements. Students may submit only one assignment at a time.

Course Guide: \$32

R324 Recreational Sport Programming (3 cr.)

10 lessons | 2 exams

Overview of programmatic elements and techniques in recreational sports. Topics include informal, intramural, club, extramural, and instructional sports programming; values of recreational sports; terminology and career opportunities in various recreational sport settings.

Course Guide: \$32

HISTORY

A301 Colonial America (3 cr.)

8 lessons | 2 exams

Social, cultural, economic, and political development of colonial America from first contact between Native Americans and Europeans, up to the outbreak of the American Revolution. Topics include global capitalism, migration, slavery, consumerism, religious revivalism, and democracy.

Course Guide: \$32

A303 United States, 1789–1829 I (3 cr.)

10 lessons | 2 exams

The young republic from Washington's presidency through the Civil War. Political, economic, and social conditions and changes; Hamiltonian Federalists and Jeffersonian Republicans, the Jacksonian era, the slavery conflict, and the crisis of the Union.

Course Guide: \$32

A314 United States, 1917–1945 (3 cr.)

10 lessons | 2 exams

Political, demographic, economic, and intellectual transformation of 1917–1945; World War I, the twenties, the Great Depression, New Deal, and World War II.

Course Guide: \$32

A363 Survey of Indiana History (3 cr.)

10 lessons | 2 exams

A survey of Indiana history and culture from the original inhabitants to recent times, with emphasis on the growth of a distinctive Hoosier culture. Credit not given for both the sequence A333–A334 and A363.

Course Guide: \$32

A364 History of Black Americans (3 cr.)

6 lessons | 2 exams

A survey of black life in America: the Atlantic slave trade, slavery, Afro-American culture, racism, Civil War and Reconstruction, peonage, segregation, northern migration, urban ghettos, discrimination, Harlem Renaissance, black nationalism, civil rights, black revolt, contemporary setting.

Course Guide: \$32

B323 History of the Holocaust (3 cr.)

8 lessons | 2 exams

Anti-semitism in imperial and Weimar Germany; the Nazi rise to power; the destruction of European Jewry; Jewish behavior in crisis and extremity; the attitude of the Allied nations; mass murder in comparative historical perspective; theological, moral, and political implications.

Course Guide: \$32

B362 Europe in the Twentieth Century II (3 cr.)

9 lessons | 2 exams

Economic, social, political, and military-diplomatic developments, 1930 to present: Depression politics; crisis of democracy; German national socialism; World War II; Cold War; postwar reconstruction and recovery.

Course Guide: \$32

E332 African History from Colonial Rule to Independence (3 cr.)

10 lessons | 2 exams

1750 to present. Slave trade, European imperialism, impact of Islam and Christianity, new state formations, reassertion of African culture and identity. Some map study. Credit given for only one of E432 or E332.

Course Guide: \$32

H101 The World in the Twentieth Century I (3 cr.)

8 lessons | 2 exams

Principal world developments in the twentieth century, stressing Latin America, Africa, Asia, and Europe; global and regional problems; political revolutions; social and cultural diversity.

Course Guide: \$32

H105 American History I (3 cr.)

8 lessons | 2 exams

Evolution of American society: political, economic, social structure; racial and ethnic groups; sex roles; Indian, inter-American, and world diplomacy of the United States; evolution of ideology, war, territorial expansion, industrialization, urbanization, international events and their impact on American history.

Course Guide: \$32

H106 American History II (3 cr.)

8 lessons | 2 exams

A continuation of H105: 1865 to present. May be taken without H105.

Course Guide: \$32

H207 Modern East Asian Civilization (3 cr.)

8 lessons | 2 exams

Contrasting patterns of indigenous change and response to Western imperialism in East Asia during the nineteenth and twentieth centuries. China and Japan receive primary consideration. Emphasis on the rise of nationalism and other movements directed toward revolutionary change.

Course Guide: \$32

H233 Sports in History (3 cr.)

10 lessons | 2 exams

Examines the historical conditions in which sports have developed from ancient to contemporary times, with particular emphasis on modern American society and sport.

Course Guide: \$32

HISTORY AND PHILOSOPHY OF SCIENCE

X207 The Occult in Western Civilization (3 cr.)

8 lessons | 2 exams

Critical and historical evaluation of a wide range of occult topics: superstitions, magic, witchcraft, astrology, the Cabala, psychic phenomena (mesmerism, spiritualism, ESP), and UFOs. Note: Required DVD contains graphic crime scene footage. Students must have access to the Internet for e-reserve reading materials.

Course Guide: \$32

JOURNALISM

C200 Introduction to Mass Communications (3 cr.)

8 lessons | 2 exams

A survey of functions, responsibilities, and influence of various mass communications media. Directed toward the consumer and critic of mass media in modern society. Does not count toward major in journalism. Students must have access to news media.

Course Guide: \$32

C327 Writing for Mass Media (3 cr.)

8 lessons | 2 exams

A survey for nonmajors stressing the principles of writing for mass media. Emphasis on development of story ideas, information gathering, organization, and effective presentation of material for various news media, print and electronic. Basic computer proficiency encouraged. Will not count toward journalism major requirements.

Course Guide: \$32

37 | Important: You will no longer be able to register for print courses after December 31, 2011.

LINGUISTICS

L103 Introduction to the Study of Language (3 cr.)

8 lessons | 2 exams

A survey of perspectives on language, covering topics such as the relation between the form of words and sentences and their meanings, the sounds of languages and their dialect variations, the use of language in daily life, language in humans and animals, and the relationship between language and thought. Not a course in English as a second language.

Course Guide: \$32

MATHEMATICS

M118 Finite Mathematics (3 cr.)

8 lessons | 4 exams

Prerequisite: Two years of high school algebra or M014. Sets, counting, basic probability including random variables and expected values. Linear systems, matrices, linear programming, and applications. Credit given for only one of M118, A118, or the sequence D116-D117.

Course Guide: \$32

MUSIC

Z393 History of Jazz (3 cr.)

8 lessons | 2 exams

Periods, major performers and composers, trends, influences, stylistic features, and related materials. For nonmusic majors only. Uses audio CDs.

Course Guide: \$32

NURSING

B219 Pharmacology (3 cr.)

10 lessons | 3 exams

Prerequisites: Chemistry C102, Biology N261, and N217. The physiologic action of drugs and their therapeutic use, the nurse's role in administering drugs, and the need for continuous study of drug therapy. Note: B219 is no longer required by the IU School of Nursing and no longer counts toward the BSN degree.

Course Guide: \$32

PHILOSOPHY

P100 Introduction to Philosophy (3 cr.)

10 lessons | 0 exams

Perennial problems of philosophy, including problems in ethics, in epistemology and metaphysics, and in philosophy of religion.

Course Guide: \$32

P105 Thinking and Reasoning (3 cr.)

8 lessons | 2 exams

Basic rules of correct reasoning; roles of definitions and of language in thinking; roles of observation, hypothesis, and theory in knowledge; basic techniques for gathering information, testing beliefs for truth, and problem solving.

Course Guide: \$32

P140 Introduction to Ethics (3 cr.)

10 lessons | 0 exams

Philosophers' answers to ethical problems (e.g., the nature of good and evil, the relation of duty to self-interest, the objectivity of moral judgments), and the application of ethical theory to contemporary problems.

Course Guide: \$32

P150 Elementary Logic (3 cr.)

10 lessons | 2 exams

Development of critical tools for the evaluation of arguments. Not a prerequisite for P250. Not open to students who have taken or are registered for P250.

Course Guide: \$32

P240 Business and Morality (3 cr.)

6 lessons | 0 exams
